### **DESCRIPTION OF TRAVEL ASSISTANCE SERVICES**

Medjet is a medical transport membership program arranging worldwide medical transport and emergency consultation services. Members are provided with access to medically dedicated aircraft and commercial medical escorts capable of transporting them from domestic and international hospitals to the hospital of their choice in their Home Country during the term of their membership. In addition, Medjet provides Members with access to medical professionals for consultations and other Member services.

### **MEMBERSHIPS**

Medjet provides travel assistance services to Members under various membership plans:

1. Individual Diamond Expat Membership: Available to residents of the United States, Canada and Mexico age 75 up to the Member's 85th birthday. An Individual Membership includes the individually identified Member only.

The General Health Questionnaire and Physician's Medical Statement must be completed by the prospective Member and his or her physicians. Only the Physician's Medical Statement provided by Medjet will be accepted for consideration. All Diamond Expat Memberships, both new and renewal, are subject to approval by Medjet, whose decision is final.

The Diamond Expat Membership Application includes a General Health Questionnaire and Physician's Medical Statement that must be completed by the prospective Member and his or her physician(s) each year. Only the Diamond Expat Application provided by Medjet will be accepted for consideration. Additional health information may be requested by Medjet from the prospective Member's physician(s). All Diamond Expat Membership Applications are subject to approval by Medjet, whose decision is final.

Two levels of Diamond Expat Memberships are offered based on the amount of uninterrupted time spent outside of the Member's Home Country.

Medjet's Diamond Expat180 membership is for the Medjet Member traveling outside his or her Home Country for up to 180 consecutive days. If the member returns to his or her Home Country at any time during that period, the time is reset and will begin again upon his or her next departure out of his or her Home Country.

Medjet's Diamond Expat365 membership is for the Medjet Member traveling outside his or her Home Country for up to 365 consecutive days. If the member returns to his or her Home Country at any time during that period, the time is reset and will begin again upon his or her next departure out of his or her Home Country.

Medjet memberships are nontransferable and are nonrefundable after the membership's effective date. By enrolling as a Member, you accept and agree to the terms and conditions of membership.

A Medjet membership provides access to Medjet authorized affiliates only. All arrangements for medical transport and repatriation will be made by Medjet.

Medjet is a membership program and not an insurance plan; Medjet will not reimburse Members for expenses they incur on their own.

Members will also need to maintain appropriate health insurance in their Home Country that will provide for inpatient admission.

## **MEMBERSHIP TERM**

Subject to the limitations identified herein, the term of a Medjet membership commences on the Effective Start Date selected by the Member during the enrollment process.

A Membership Year is the one-year period commencing on the Effective Start Date for the first year and ending one (1) year thereafter at 11:59 PM Central Daylight Time.

To be eligible for Medjet services for a specific trip, the Effective Start Date must be prior to or the day of the Member's initial departure from his or her Residence Address, and the Member's hospitalization date must be prior to or on the Expiration Date of the selected membership.

Regardless of the Effective Start Date selected by the Member, Medjet membership is valid only when the membership fee is collected. A membership is not valid if the membership fee payment is declined, returned or otherwise unpaid. In such a case, the Effective Start Date shall be the date the membership fee is successfully collected.

Medjet reserves the right to revoke, rescind or cancel any membership or refuse any renewal at the company's sole discretion.

Should Medjet exercise its rights to revoke, rescind or cancel a membership, Medjet shall refund the Member a portion of the membership fee prorated based on the remaining term of the membership.

All membership applications and enrollment forms must include accurate information in order to ensure program eligibility. Any false or inaccurate information that would affect a Member's eligibility for Medjet membership is grounds for revocation, cancellation or rescission of the Membership.

All Diamond Expat Membership Applications, both new and renewal, are subject to approval by Medjet, whose decision is final.

## **SERVICES**

Subject to limitations on services described herein, Medjet provides medical, legal and special services to any Member traveling 150 miles or more from his or her Residence Address as defined herein.

A Member's Residence Address is the current home address on file with Medjet (identified by the Member during enrollment unless changed by the Member subsequent to enrollment).

A Member's Home Country is the country of the Member's Residence Address. If a Member's Residence Address changes during the term of the membership, the Member must notify Medjet of the change by phone prior to initial departure on a trip.

Travel assistance information is available prior to departure or during a trip.

## **WORLDWIDE REPATRIATION**

Subject to limitations on services described herein, when a Medjet Member becomes hospitalized as an inpatient due to illness or injury while traveling 150 miles or more from his or her Residence Address as defined herein, Medjet will arrange for medical transportation and repatriation services to the hospital of the Member's choice in the Member's Home Country.

Affiliate aircraft used for the medical transport of Medjet Members are fully equipped intensive care aircraft staffed with specially trained medical teams. **However, if the Member's condition permits, the Member will be transported by scheduled commercial airline while in the care of a Medjet authorized medical escort.**

## **MEDICAL TRANSPORT SERVICES**

### **A. Availability**

Medjet medical transport services are available to any Member who qualifies for medical transport services in accordance with these Rules and Regulations, is hospitalized as an inpatient 150 miles or more from his or her Residence Address and is accepted as a patient into an available inpatient bed by an admitting physician at the hospital of the Member's choice in the Member's Home Country.

Medjet medical transport services are not available to a Member with mild lesions, simple injuries such as sprains, simple fractures or mild illnesses that can be treated by local doctors and do not prevent the Member from continuing his or her trip or returning home without medical attention.

Both the originating and receiving hospitals must be accessible by ground ambulance to transport the Member to and from an airfield capable of accommodating a Medjet authorized aircraft (in the case of a medical transport via medically dedicated air transport) or a commercial aircraft (in the case of medical transport via commercial airline in the care of a Medjet authorized commercial medical escort).

Due to the limited medical facilities and testing available on cruise ships, the Member must be admitted to a hospital on shore before scheduling medical transport to another hospital.

The time frame for medical transport is dependent on affiliate aircraft availability, required permits and visas for the respective countries, and other factors that may be beyond Medjet's control.

Members must have proper documentation to return to their country of residence. Medjet is not responsible for obtaining these documents in the event of a request for transport.

### **B. Commercial Medical Escort Service**

Medjet will arrange for medical transport via commercial airline in business class, if available, in the care of a Medjet authorized commercial medical escort if:

1. the Member requires continued inpatient hospitalization;
2. the remaining inpatient hospitalization can be completed at a hospital of the Member's choice in the Member's Home Country; and
3. the Member can be returned by commercial airline in the care of a Medjet authorized commercial medical escort.

One (1) traveling companion may accompany each Member being transported via scheduled commercial airline, at no additional cost, via economy class.

### C. Medically Dedicated Air Transport Service

Medjet will arrange for medical transport via medically dedicated air transport on a Medjet authorized aircraft if:

1. the Member requires continued inpatient hospitalization;
2. the remaining inpatient hospitalization can be completed at a hospital of the Member's choice in the Member's Home Country; and
3. the Member cannot be returned by commercial airline in the care of a Medjet authorized commercial medical escort.

One (1) traveling companion may accompany each Member being transported on a Medjet authorized aircraft during a medically dedicated air transport, at no additional cost, provided space is available and the Member's care will not be compromised.

While Medjet makes every effort to accommodate its Members, due to limited space available on medical aircraft, the Member and any accompanying passenger are limited to one small carry-on bag each.

### D. Transport Criteria

All arrangements for medical transport and repatriation will be made by Medjet. **Decisions regarding the urgency of the case, the best timing and the most suitable means of transportation will be made by Medjet after consultation with the local attending physician.**

Medical Assessment – Medjet will require a Medical Assessment in order to determine membership benefits and stability for transport. The Medical Assessment requires a consultation between the Member's treating physician, who will provide a final or interim diagnosis that will require continued inpatient hospitalization, and a Medjet physician, who will review and evaluate the treating physician's diagnosis in order to determine the Member's transport requirements.

A Member must be medically stable for medical transport.

Assuming all other medical transport criteria are met, a Member who is initially considered medically unstable for transport to the hospital of the Member's choice in the Member's Home Country may first be transported to the nearest appropriate medical facility for initial stabilization. After this initial stabilization, Medjet will arrange continued transport to the hospital of the Member's choice in the Member's Home Country if the Member continues to meet medical transport criteria.

### COVID-19 SPECIALIZED TRANSFER

Subject to all other Rules and Regulations and the following additional limitations on services described herein, when a Member (whose Home Country is the United States, Canada or Mexico) becomes hospitalized as an inpatient due to Covid-19, is more than 150 miles from their Residence Address, and requires continued inpatient hospitalization, Medjet will arrange for Covid-19 Specialized Transfer to the Member's hospital of choice within their Home Country.

For more information about the Covid-19 Specialized Transfer benefit, please visit the **Covid-19 Services Information Page** on Medjet.com.

Members otherwise eligible for transfer for Covid-19 must not exceed the maximum allowable height, weight and girth requirements set forth by the manufacturers of Covid-19 transport pods utilized in the safe transfer of Covid-19 positive patients. Please contact Medjet if you have questions or concerns regarding the sizing requirements prior to travel.

No traveling companions or family members will be allowed to accompany patients transported for Covid-19.

If a hospitalized Member is under quarantine by a hospital, a government or any other regulatory entity exercising jurisdiction and that medical facility, government or regulatory entity will not allow transfer, transport will not be possible.

The receiving hospital selected by the hospitalized Medjet Member must agree to accept the patient. Otherwise, Medjet's transport to that hospital will not be possible.

The time frame for Covid-19 Specialized Transfer **WILL BE** extended beyond that of typical medical transports and is dependent on multiple factors including, but not limited to, affiliate availability to transfer Covid-19 patients, required permits or permissions and any other factors that are beyond Medjet's control.

With respect to Covid-19 specialized transfers, to the extent of any actual or claimed inconsistency between the Covid-19 Specialty Transfer provisions and any other provision(s) of the Rules and Regulations, the Covid-19 Specialty Transfer provisions control.

Members otherwise eligible for transfer via medically dedicated aircraft must not exceed the maximum allowable weight and girth requirements for such aircraft and their medical transport providers.
